

Re-thinking your Primary Curriculum? Creating a curriculum for excellence?

Crazy cross-curricular or intelligent interdisciplinary model?*

Interested in re-shaping your curriculum? Come and join our Learning Network:

- Why do we choose (and leave out) certain topics?
- What would our ideal curriculum include?
- How do we judge its impact on learning?

If you'd like your school curriculum to be the one that truly reflects your school's vision, this is the network for you! We are a group of senior leaders, all interested in curriculum design. Come and be part of an innovative project to transform how you think about the curriculum.

Our network will meet for 5 afternoon sessions and use information from recent thinking by prominent educationalists to frame our own school-led improvements.
